THE SIXTY-SECOND ANNUAL REPORT OF THE BOARD OF MANAGERS OF ST. LUKE'S HOSPITAL

For the year ending September 30, 1920

TO THE MEMBERS OF THE SOCIETY OF ST. LUKE'S HOSPITAL:

The work of the Hospital for the year, as compared with the previous year, is briefly exhibited in the following tabulation. (Detailed statistics are given in the Superintendent's Report on pages 42-47)

Wards and Private Rooms:	1920	1919
Patients treated	7,779	7,873
Days of Care	117,100	121,174
Out-Patient Department:		
Patients treated	20,351	16,810
Visits made	81,558	65,495
Total Patients treated:		
In Hospital and Out-Patient Department	28,130	24,683
Number of Surgical Operations:		
In patients	3,999	3,735
Out-patients	1,710	1,358
Social Service:		
Patients visited	6,020	4,818
Total visits made	21,715	19,600

The decrease in the number of Hospital patients and in the days of treatment as shown in the Superintendent's Report is due to two causes:

1. The unusually large number of patients developing communicable diseases in the Children's Wards during the winter, which necessitated placing those wards in quarantine.

2. The closing of adult wards for brief periods for painting and renovation.

In other respects the Hospital has been not only kept filled to its utmost capacity, but the administration has reluctantly, for

lack of room, been obliged to decline admission to seven hundred and seventy-nine applicants.

The work of the Out-Patient Department shows a large increase both in patients and in visits made. This Department is working to the full capacity of the Dispensary Building. In the early winter evening clinics for the treatment of syphilitic, cardiac and tuberculosis patients who cannot attend the day clinics were established.

AN ADDITIONAL WARD OPENED

In the early part of the calendar year a ward which, for lack of means had never been opened, except during the period of the war when it was used as a military ward, was opened for the reception of male medical patients.

PURCHASE OF ADDITIONAL PROPERTY

With a view to the future growth of the Hospital the Managers have taken advantage of an opportunity to purchase property consisting of an apartment house at 419-421 West 114th Street, on land fifty by one hundred feet, opposite the Vanderbilt Pavilion of the Hospital group, and property directly north of the apartment house consisting of four vacant lots on the southerly side of 115th Street one hundred feet east of Amsterdam Avenue. The rentals from the apartment house will yield to the Hospital a good income until the property is used for Hospital purposes.

UNITED HOSPITAL FUND

The increased expenses of the Hospital, in common with all other institutions, has been very great, and were it not for the vigorous and successful efforts of the United Hospital Fund, St. Luke's would have had to face a large deficit this year. The proportion of the collection awarded to St. Luke's on the basis of days of free work done by the Hospital in the fiscal year ending September 30, 1919, was \$54,275.76, for which the Managers express their deep appreciation.

The deficit of the Hospital this year stands at \$13,298.92

FOLLOW-UP WORK

Some two years ago a service to follow up patients who have been operated upon and discharged from the wards was estab-

lished. This service, as distinct from the follow-up so efficiently done by the Social Service Organization, is for the purpose of ascertaining the results of their treatment and bringing them back periodically to be observed by the surgeons who cared for them while in the Hospital. For two years this work was done chiefly through the mails by requesting the patient to return for examination, but this being found not as effective as desired a full time worker who is a graduate nurse was put in charge of the work. This worker now visits patients a few days before their discharge from the wards in order to ascertain whether they require follow-up service, and if so to establish their connection with the follow-up clinic. Patients are constantly surprised and pleased that the interest of the Hospital in them is not to terminate upon their discharge from the wards. If the patients do not return at stated intervals the worker calls at their homes to ascertain the reason of their absence. This work gives evidence of satisfactory progress, but there is much to be done to perfect it. The following tabulation from December 8, 1919, when the worker took charge, to the close of the fiscal year, September 30, 1920, may be of interest:

Ward visits	2040
Home visits	575
Letters written	369
Patients interviewed in office	173
Patients notified to return for examination	2725
Patients returned for examina- tion	1740 or 63.8%

The returns for examination show a slow but steady increase from 55.8% in March to 73% in July for total number of patients returning.

SOCIAL SERVICE

The Managers cannot too strongly emphasize the importance of and benefit to the Hospital of this Service, and they most heartily express to the group of women who are so splendidly doing this work their appreciation of it.

During the year three new divisions have been added to the Service with a worker for each division, namely: for the Adult

Cardiac Clinic, the Syphilitic Clinic, and the Clinic for the Pre-School-Age Child. The fulfilling of these needs was much desired and the results obtained thus far have been excellent.

When it is realized that deaths from organic heart disease are in excess of those from either tuberculosis or cancer, and that a large proportion of deaths from such disease can be prevented by proper treatment, by change of occupation, or by the removal of the patient when necessary from wrong social environment, the need of workers in this line is apparent.

Since the establishment of social service work in connection with the Syphilitic Clinics the attendance at the clinics has more than doubled. The beneficial results of the presence of the social worker in these clinics have a strong bearing, not alone on the physical welfare of the patients and their families, but also on their moral welfare.

General preventive work with children between the ages of two and six has been much neglected in the past. Infants until two years of age are, for the most part, fairly supervised. After six, which is about the time when they enter school, they have the advantage of medical inspection, but in the interim, the important period in which the foundations of future health are laid, they have scant care. In April, 1920, a branch of the Pediatric Clinic was established to examine and follow up children of such ages with a view to overcoming physical defects which may retard their mental development, and with the hope that they may be started in life with as little handicap as possible. This clinic is designated as the Clinic for the Pre-School-Age Child.

There are now in the Social Service eleven professional workers, including the Head Worker, and the Clinics covered, besides those mentioned, are

- Tuberculosis
- Adult Medical
- Adult Surgical
- Children's Cardiac
- Poliomyelitis, Orthopedic and
- Children's Surgical

NEEDS OF THE HOSPITAL

Hospital facilities in the City of New York are inadequate. They have been so for many years; and in the past few years the increase in hospital accommodation has not begun to be proportionate to the increase in population.

The plan adopted for the building of St. Luke's includes three additional pavilions on the space in the present Hospital block. The Managers are eager to go forward with the enlargement of the Hospital by the erection of these pavilions as soon as means for their construction and maintenance are provided.

The most urgent needs are:

An additional pavilion to be used as a residence for nurses, and another pavilion for private and semi-private patients. The Hospital is intended primarily for the care of the poor, but the provision of further accommodation for private patients would yield income which would provide increased accommodation for ward patients. Moreover, the physicians and surgeons who are caring for ward patients without financial remuneration should have facilities for the care of their private patients, so that they can concentrate to a greater extent their attention upon the Hospital to which they are attached. This insures to both ward and private patients closer attention and economizes the time of the attending physicians and surgeons.

CONVALESCENT HOME AND HOSPITAL

The existing provision in New York for the care of convalescents and patients suffering from semi-chronic conditions is less adequate even than that for patients having acute maladies. We are so deeply convinced of the good results which could be accomplished by a great country branch of the Hospital that we repeat our plea of last year for the establishment of such an institution to be operated in conjunction with our city Hospital.

One of the great problems which confronts us in our efforts to care for the sick and disabled is what to do with patients who require long courses in health building and who, instead of being a burden to themselves and others, could by means of prolonged treatment be made happy and useful members of society. Among such are patients suffering with cardiac troubles, tubercular bone

conditions, and mild forms of neurosis. Frequently the teaching of a new occupation in conjunction with treatment in the country would fit such persons for lives of usefulness, instead of their becoming hopeless and helpless invalids. The transfer of patients from the Hospital to a country branch in the early stage of convalescence would greatly increase hospital facilities, and better results could be obtained at less expense. By this method the Hospital in the city could be limited to the care of acute cases. A country branch such as we have in view would be a blessing to the community, and we again state that our Board would be glad to undertake it if the means to establish and maintain such an institution are provided.

ROENTGEN RAY LABORATORY

The use of the x-ray for both diagnostic and therapeutic purposes becomes more extensive each year. The Medical Board of St. Luke's has recently requested the Board of Managers to provide another laboratory for the treatment of patients exclusively. The work of the diagnostic laboratory has already outgrown its capacity, and if provision is made for x-ray treatment it must be by means of a separate laboratory. An endowment of from \$250,000 to \$300,000 is solicited for x-ray work.

GIFTS AND LEGACIES

The gifts and legacies, other than those listed in various schedules in the Annual Report, received during the year were as follows:

Estate of J. C. Woodward, U. S. A. 2nd Liberty

CENTURY FUND

The Century Fund of St. Luke's Hospital was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons, of \$100 each, toward supplying the difference between the annual expenses of the Hospital and its income.

The number of subscriptions last year was but sixty-nine. It is hoped that in the coming year they may be increased to the full number, 100, and thereafter maintained at that number.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

REPORT OF THE COMMITTEE ON THE TRAINING SCHOOL FOR NURSES

For the Year Ending September 30, 1920

The Committee on the Training School presents to the Board of Managers the following report for the year:

The statistics for the year are as follows:

Directress	1
Assistants	4
Instructor	1
Head Nurses	18
Anesthetists	2
Out-Patient Department	1
Roentgen Ray Laboratory	2
Letters of Inquiry	1,366
Applications received	802
Applications declined	79
Applications accepted	61
Probationers accepted	55
Probationers dropped	0
Pupils admitted	33
Pupils resigned	3
Pupils died	0
Nurses graduated	49
Present number of pupils	104
Present number of probationers	34
Present number of nurses from Army School of Nursing	14

Forty-nine nurses were graduated on the evening of May 20th, 1920. The Right Reverent Charles Sumner Burch, D.D., LL.D., Bishop of New York, delivered the address. In the absence of the President of the Hospital by reason of illness the diplomas were presented to the members of the graduating class by the Chairman of the Committee on Training School.

The work of the year has been attended with many difficulties owing to the shortage of nurses and the impossibility of obtaining

adequate help. The number of students admitted to the Training School during the year has been notably less than the required number. Notwithstanding this fact the Training School has been able to maintain the system of shorter hours adopted a year ago.

The affiliation made in 1919 with the Army School of Nursing is continued and from this School there are now fourteen students on duty in the Hospital.

An arrangement has been made during the year with St. Mary's Free Hospital for Children of New York whereby senior students of that School are received at St. Luke's for training in adult nursing for a period of three months.

There have also been admitted within the year ten nurses from other hospitals for post graduate experience.

The nurses from the affiliating schools have rendered valuable assistance.

During the year two pupil nurses were released from Hospital ward duties for eight months to enable them to take a course in Hospital Social Service at Columbia University together with their practical work in our own Social Service Department, their fees at the College being paid by scholarships given by the Hospital Social Service Association of New York. Two more students have been selected for the same course for the coming year. Upon graduating from the School students taking this course, will hold, in addition to the diploma conferred by the Hospital, a certificate in Hospital Social Service from the University.

A relationship has been lately established with the Department of Nursing and Health of Columbia University by which high school graduates too young to enter the Training School but able to meet the requirements of matriculation in the freshman year, may work for the Bachelor of Science degree and at the same time pursue the regular course of nurse training. The first two years will be spent at the College, and the second two years in the Hospital, where the student can complete her work for the Hospital diploma.

Hereafter applicants who hold a Bachelor of Science degree, and otherwise meet the requirements for admission, will be admitted to the School for a course of two years and six months, instead of the regular course of three years.

The gifts of a new piano for the Nurses' Home and of daily papers and various periodicals from the President have added much to the pleasure of the nurses in their hours of recreation.

The Committee records its appreciation of the services of Doctors Hollis and Gould to members of the School in times of illness.

The curriculum of the School is as follows:

PASTOR'S REPORT

To the Honorable the Board of Managers:

Gentlemen:

During the past year the usual religious services have been conducted by the Clergy. Each day begins with a brief service said in every ward, and closes with Evening Prayer in the Chapel. On Sundays, services are held during the morning in all the wards, and also in the Chapel at half-past ten o'clock A.M., and half-past three o'clock P.M. On the first and third Sundays of each month, and on all the principal feast days of the Church year, Holy Communion is celebrated in the Chapel, and the Sacrament is administered in each adult ward at least once a month. As the Sacrament is always reserved in the Chapel for communicating the sick, it is possible at any hour of the day or night for any patient to receive at short notice.

The Assistant Pastor visits the ward patients individually every morning after prayers and at such other times as necessity requires or the patients desire. The Clergy are always ready to visit private patients when requested to do so.

The Pastor desires to record his grateful appreciation of the prompt response to the almost daily requests made by him and the Assistant Pastor for ministrations to patients by their own Clergy, by the Clergy of the neighboring Roman Catholic parishes of the Ascension and Notre Dame, and by the ministers of other religious denominations.

The following are the pastoral statistics for the year:

Baptisms	23
Marriages	3
Funerals	52
Holy Communion:	
In Chapel	32
In Wards	112 (1028 Communicants)
In private and extremis . . .	294

Grateful thanks are due and are hereby extended to the New York Altar Guild for the gift of a beautiful green stole for use in the Chapel, and for their usual supply of Communion Wafers for the Chapel and ward services.

The Library continues to be a centre of interest to the patients who care to read, and there is a steady demand for literature of all kinds, but especially for recent fiction. About the usual number of volumes has been added by purchase and gifts from private patients and others interested in this branch of our work. New books for both adults and children are always most acceptable, and can be sent to the Assistant Pastor, who has charge of the Library.

The Pastor's Fund for the year has been administered as follows:

ENDOWMENT OF BEDS

A bed in an adults' ward may be endowed by the payment of a sum not less than \$7,500.

A bed in a child's ward may be endowed by the payment of a sum not less than \$5,000.

The annual income of such endowment shall be applied to the cost of maintaining a patient upon the bed endowed so far as such income will suffice to pay such cost; and the founder and a successor named by him shall have the right of nomination.

The annual charge for the support of an adult's bed is five hundred dollars, and for a child's bed three hundred dollars.

CIRCULAR OF INFORMATION

OF ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES
NEW YORK

History of the Training School.—The St. Luke's Hospital Training School for Nurses was organized in the year 1888 for the purpose of preparing young women for the profession of nursing the sick.

At first the course in training in the School extended over a period of two years, but a more comprehensive training soon seemed advisable, and in 1896 a three years' course was put into operation and has continued to the present.

Since its organization the Training School has undergone many changes and improvements as times and conditions have varied. The Hospital has been steadily increasing in capacity and improving in equipment and the Training School has kept pace with it until today it offers all of the most desirable advantages and opportunities which an earnest and energetic young woman could wish when seeking to prepare herself for this most important and noble life work.

In 1905, in accordance with a State law, the Training School was registered with the Regents of the University of the State of New York, thus being placed in the ranks of officially recognized training schools in the State.

Equipment for Instruction.—St. Luke's Hospital is a large general hospital of 400 beds with medical and surgical wards for both adults and children, gynecological, orthopedic, eye, ear, nose and throat services. The Private Pavilion, with a capacity of 65 patients, is thoroughly equipped with all the first-class modern conveniences. The Out-Patient Department has recently been housed in a new building with an equipment which is complete and superior in all respects. The Diet Kitchen and Operating Rooms, with competent instructors in charge afford exceptional opportunities.

These departments are all open to the pupils for instruction, and each one is given her course of training in them as the requirements of the institution dictate or permit.

The Hospital has no maternity wards, but an affiliation exists with the Sloane Hospital for Women and the New York Nursery and Child's Hospital, both in the city, at one of which each nurse is required to take a three-month's course at some period during her training.

The Hospital furnishes two well-equipped class rooms for the use of the pupils, one for recitations and lectures and the other for demonstration purposes. Also, the Training School possesses a reference library which contains a variety of standard reference and text books. This is at the service of the pupils, and enables those who are ambitious and energetic to do advanced collateral reading and study.

Government.—The Training School is under the same government as the Hospital, the Board of Managers, of the institution having jurisdiction over it. A special Training School Committee exists within the Board of Managers.

The officers of the Training School proper are a Directress of Nurses and an Assistant Directress of Nurses. The Directress of Nurses has the power to make all appointments of candidates for the School, and to determine the qualifications of probationers for the work and the propriety of retaining or dismissing them during their probationary term. The reasons for rejection are not given, neither are letters addressed personally to the authorities of the school returned.

The right is reserved by the Hospital to terminate the connection of any pupil with the School for reasons which the Hospital may deem sufficient.

Discipline.—The rules of the Training School are such as any self-respecting, earnest woman will recognize as embodying only those requirements which are fair and necessary in an institution of this kind. These are made known to the pupil upon her arrival, and she is responsible to the officers of the Training School for her conduct while in training.

Length of Course.—The course of training covers three years from the date of entrance. The first six months of this period constitute a Preliminary Probationary Term.

Requirements for Admission.—Pupils are admitted regularly in classes in the spring and autumn.

Application must be made either in person or through the printed "Form of Application" to the Directress of Nurses. If possible, an appointment should be made for personal interview, the Training School office hours being from eleven to twelve o'clock on Tuesday, Thursday and Saturday.

Applicants must possess at least a high school education or its equivalent and women of higher education will be given preference.

Applicants who hold a Bachelor of Science degree, and otherwise meet the requirements of admission, will be admitted to the School for a course of two years and six months, instead of the regular course of three years.

Candidates should be from twenty-one to thirty-three years of age.

Appointed Candidates.—Accepted candidates are nominated in order on a waiting list according to the needs of the Training School. When called, they are expected to report promptly, and to bring with them the means of returning to their homes should they not successfully pass their probationary term.

Acceptance into the Training School.—At the close of the Preliminary Term, each probationer who has successfully passed the required examinations of the course, and who has given satisfaction in all other respects, will be accepted into the Training School upon signing a written agreement to remain in the School for the remainder of the three years, and to conform to its rules and the rules of the Hospital.

Nurses, after they have been admitted into the Training School, are required to wear the Training School uniform while on duty.

Expenses.—A fee of \$25.00, payable upon entrance, is required of all students. This fee will not be returned.

No salary is paid the pupils. The Hospital supplies the uniforms for all nurses who have been accepted into the Training School, but probationers must furnish their own uniforms in accordance with specifications which will be furnished them upon their appointment.

Text books, board, lodging and laundry, are furnished by the Hospital for all nurses and probationers.

The uniforms and text books given the nurses belong to the School and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of Duty.—The hours of duty are fifty two hours weekly for the day staff, and ten hours nightly for the night staff. Nurses are allowed one afternoon each week and half of Sunday off duty. These hours are subject, however, to the requirements of the Hospital work.

Vacations and Leaves of Absence.—A vacation of three weeks is allowed each year. Pupils will not be allowed, during their course of instruction, to nurse sick relatives at home, nor to absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If a nurse is absent for a period exceeding four weeks she will lose her class position in the School but may enter the succeeding class, unless such absence exceeds four months, when she will forfeit her membership in the Training School. If readmitted, she must begin her course anew. This rule may be modified by the Training School Committee.

All time lost for any reason must be made up.

Illness.—In illness pupils are cared for by the Hospital, receiving the professional services of the Training School Physicians.

Records.—Careful and complete records of class work, examinations and general deportment of pupils are kept on file in the Training School office.

Examinations.—Written or oral examinations, with practical tests, are required at the close of each course of study. Any pupil failing in a subject will be required to take it again the following year.

Final examinations are conducted by a Committee of the Medical Board.

Formal graduation exercises are held in the Chapel of the Hospital at the close of each school year.

Graduation.—A course of three years of study and experience, including the probationary period, is required for graduation. When the full term of three years is completed, and the pupils

are regarded as thoroughly qualified, they receive if their conduct and examinations have been satisfactory, diplomas certifying to the fact, after which they are at liberty to choose their own field of labor.

Religion.—The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly.

Services are held in all the wards of the Hospital each morning, and Evensong at 6 o'clock each evening in the Chapel.

Nurses' Home.—The nurses have as their exclusive home the *Vanderbilt Pavilion of the Hospital*. This is a large, light and airy building equipped with all modern conveniences and comforts, having, in addition to the nurses' rooms and baths, etc., a parlor on the first floor comfortably furnished for the entertainment of friends; a dining room on the sixth floor; night nurses' quarters on the seventh floor; and on the eighth floor a large bright solarium and club room, in which the nurses are also provided with a library.

The comparative isolation of the Nurses' Home from the Hospital proper makes it possible for the nurses to enjoy complete relaxation and a generous amount of recreation when off duty.

ADMISSION OF PATIENTS

DISEASES TREATED

All kinds of *acute, curable, and non-contagious* diseases are treated in the wards. Sufferers with chronic and incurable complaints are received and retained at discretion, but not permanently provided for. None are received as patients, who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING

Applications received in person daily (except Sunday) from 10 a. m. to 5 p. m. Cases of sudden injury requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Superintendent. Such communications should enclose a written certificate from a regular physician as to the applicant's disease, present condition, and symptoms and it should state whether bed in general ward or private room is desired. If latter, at what price.

Applicants from out of the city requiring *medical* treatment ordinarily are not received.

Applicants requiring *surgical operations* not obtainable at home are admitted from any part of the country.

RATES OF BOARD

GENERAL WARDS

Board of patients in general wards per week is \$17.50 for adults and \$8.75 for children (under twelve years of age), payable two weeks in advance. Unexpended portion of payment is refunded at the same rate on patient's discharge.

Applicants applying for *free* treatment in whole or in part must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue and to the support of the increasing charity work of the general wards.

PRICES OF PRIVATE ROOMS

Single rooms \$4 to \$15 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid two weeks in advance and any unexpended balance will be refunded at the same rate on the patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing or expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons are at all times within call, at discretion of nurse.

Diet is regulated by Physician's orders, and meals are served at regular hours.

AS TO FEES

No officer, nurse, or servant is allowed to receive any fee or gift from a patient.

PROFESSIONAL SERVICES OF PHYSICIANS AND SURGEONS

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect to receive such fee from any patient occupying a private room, provided, that in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the attending physician or surgeon, besides paying first the Hospital charges for board and nursing.
2. The attending and consulting physicians and surgeons are expected to make definite private arrangement as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.
3. The Hospital authorities protect their own staff from misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff whom they may select that the above arrangements may be made.
4. The physicians and surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee only to those who are unable to pay it, besides helping the Hospital rate for board and nursing.

RULES FOR PATIENTS

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the ward as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments and the like, are offenses for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctor's regular professional rounds. Loud talking, reading aloud, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular 'passday.' Passes are not granted on other days except for special causes, when they must be indorsed 'approved' by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food or delicacies of any kind except those prescribed and furnished by the Hospital or furnished by express permission of the Hospital authorities are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers and packages are allowed in the wards as are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other vendors are not allowed in the buildings.

4. No patient may purchase or procure any members of the Household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere except in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in wards to retire to their beds is 9 p. m.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman not in the house, he must signify the same to the Pastor, who may, at his discretion invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 a. m. and 12 m. and between 1 and 5 p. m.
2. The friends of patients are admitted to the general wards, from 2 to 3.30 p. m. on Tuesdays and Fridays, and on Sundays from 2 to 3.15 p. m.
3. Women visitors, unless near relatives, are not admitted into the men's wards, nor men visitors into the women's wards.
4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.
5. The cards of visitors to private patients will be taken to their rooms, under restrictions imposed by the attending doctor, daily from 10 a. m. to 1 p. m., from 3 to 5, and from 7 to 8 p. m. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 9 p. m.
6. The friends of patients are cordially invited to the Chapel services on Sunday at 3.30 p. m.
7. In case of extreme sickness special passes will be granted to the immediate relatives of the sick patient.
8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.
